

# CAUSE AND EFFECT

Cause- The Reason, why something happens.

Effect- The Result, what happened.

When you surround yourself with positive people and influences, and you yourself become a positive person. You can make your future shine bright. For example, say you have a garden and in this garden, you plant beautiful flowers and vegetables, and every day you water those flowers and the sun shines down on them. What do you think will eventually happen?

Yes, your flowers will begin to grow and before you know it your garden is filled with beautiful flowers and vegetables you planted.

Read below, determine what could be the Effect of the cause and finish the sentence.
